1. Design system & shared conventions

Layout shell

Both portals share the same structural shell:

[192px sidebar]	[top bar 48px]
Logo / profile	Content area (scrollable)
Navigation	
Footer actions	

- **Sidebar:** 192px fixed width, white background, left-anchored navigation
- **Top bar:** 48px height, page title left, action buttons right
- **Content area:** fluid width, background tertiary, 16px padding, independent scroll
- **Shell border:** 0.5px tertiary border, large border-radius container

Typography scale

Use	Size	Weight
Page title (top bar)	14px	500
Section / panel title	12–13px	500
Body / table text	12px	400
Labels, captions, metadata	10–11px	400–500
Navigation items	12px	400 (active: 500)

Colour usage

Colour role	Usage
Purple (#534AB7)	Primary actions, active nav, loan/fund accent
Green	Success states, collected, cleared, positive amounts
Amber	Warning states, partial, overdue, pending
Red	Danger, critical, delinquent, negative amounts
Blue	Info, standard loan type, bank events
Secondary background	Table headers, empty states, summary cells

Status chip palette

Chip	Colour	Used for
Active / Collected / Cleared	Green	Positive terminal states
Overdue / Warning / Partial	Amber	Attention-required states
Critical / Delinquent / Danger	Red	Blocking or error states
Standard / Info / Bank	Blue	Informational states
Migration / Loan / Fund	Purple	Domain-specific states
Neutral / Exempt / Scheduled	Gray	Inactive or non-action states

Navigation badge conventions

- Red badge → requires immediate action (e.g. critical reconciliation exception)
- Amber badge → requires attention (e.g. migration pending, overdue members)
- No badge → informational count only

Notice / alert bar conventions

Type	Colour	When to use
Red notice	Danger	Blocking condition (batch halted, funds insufficient)
Amber notice	Warning	Action recommended (EMI due soon, balance low)
Blue notice	Info	Context-setting information, no action required

Type	Colour	When to use
Green notice	Success	Confirmation, all checks passed

Button hierarchy

Level	Style	Use
Primary	Purple fill, white text	Main confirm/save action per page
Secondary	Outlined, muted text	Secondary actions, cancel, back
Danger	Red outlined	Destructive actions — reject, suspend, delete
Inline action	Borderless small	Table row actions — View, Edit

2. Admin portal

2.1 Shell & navigation

Sidebar structure:

[Logo mark + FundAdmin wordmark + "Admin portal" subtitle]

SYSTEM

Migration

Configuration

Audit log

[Footer: admin avatar + name + role + settings icon]

Top bar (persists across all pages): - Left: current page title (updates on navigation) - Centre: active cycle tag (e.g. "Cycle: May 2026") — informational only - Right: bell icon (notifications), context-sensitive primary action button, Export button

Context-sensitive top bar actions by page:

Page	Primary button	Secondary button
Dashboard	Run batch	Export
Members	Add member	Export
Loan queue	Process next	Export
Collection cycles	Run debit batch	Export

Page	Primary button	Secondary button
Disbursements	New disbursement	Export
Reconciliation	Run batch now	Export
Bank clearing	Import statement	Export
Reports	Generate	Download all
Migration	Batch classify	Export
Configuration	Save all	Reset
Audit log	Export log	Filter

2.2 Dashboard

Purpose: Single-screen operational status summary. First screen seen on login.

Layout:

[4 metric cards - full width row]

[Loan queue panel (60%) | Reconciliation alerts panel (40%)]

[Cycle progress panel (33%) | Member activity panel (33%) | Fund tier usage panel (33%)]

Metric cards (left to right):

Card	Value shown	Sub-text
Total members	Count	Delta vs prior cycle
Collected this cycle	Percentage	Members collected / total
Active loans	Count	Queue count
Recon exceptions	Count	Severity breakdown

Loan queue panel: - Shows top 4 requests by queue position - Columns: rank, member name, amount, type chip, Review button - Emergency requests always appear at top with red chip - “View all →” link navigates to Loan queue page

Reconciliation alerts panel: - Shows top 3 open exceptions with coloured dot (red/amber/blue by severity) - Each row: exception type, short description, time elapsed - “Open queue →” link navigates to Reconciliation page - Auto-resolved count shown in footer note

Cycle progress panel: - Four horizontal progress bars: Collected, Partially due, Overdue, Exempt - Percentages labelled right of each bar

Member activity panel: - Last 4–5 member events (contribution, overdue, migration, loan, EMI) - Each row: avatar initials, name, event description, status chip

Fund tier usage panel: - Four horizontal bars: Tier A, Tier B, Tier C, Tier E - Percentage utilisation (committed vs available) - Warning note if any tier approaches capacity

2.3 Members

Purpose: Full member directory with search, filter, and access to individual member records.

Sub-pages: 1. Members list 2. Member detail (with 5 tabs) 3. New member form

Members list Controls: - Search bar: name, ID, or status - Filter chips: All | Active | Migration pending | Delinquent | Suspended - “Add member” button (top bar)

Table columns: Member ID, Name, Status chip, Cash balance, Fund balance, Active loan count, Actions (View + Edit)

Member detail — 5 tabs Tab 1 — Profile - Left panel: Full name, Member ID, Join date, Status, Phone, Email, Tenure, Guarantor-for - Action buttons: Suspend (danger), Admin override, Edit profile - Right panel: Activity timeline (last 5 events with timestamps)

Tab 2 — Accounts - Left panel: Cash account — Balance, Pending clearance, Last deposit, Last debit - Action: Post manual entry button - Right panel: Fund account — Balance, Loan multiplier, Opening balance, Total contributions

Tab 3 — Loans - Active loan summary card: amount, EMI, threshold, repaid, tier, guarantor, grace period, next EMI - Action buttons: View schedule, Partial settle, Full settle

Tab 4 — Cycle history - Table: Cycle, Due amount, Status chip, Collected, Fee applied - Shows exempt cycles clearly

Tab 5 — Transactions - Table: Date, Description, Amount (colour-coded), Transaction type (DR/CR chip)

New member form Fields: - Full name, National ID / Iqama - Phone, Email - Join date, Migration cutoff date (optional — for migrated members only) - Cash account opening balance (SAR), Fund account opening balance (SAR)

Actions: Cancel, Save member

2.4 Loan queue

Purpose: Process loan requests in FIFO order; emergency requests at front.

Filter chips: All | Emergency | Standard | Pending approval | Partially disbursed

Table columns: Queue rank, Member name, Requested amount, Fund tier, Fund available (colour-coded — green if sufficient, red if insufficient), Type chip, Actions (Approve + Reject / Partial + Reject)

Loan review sub-page Accessed via “Review” or “Approve” from queue table.

Left panel — Request details: - Requested amount, Type, Fund tier, Tier available balance - Member portion, Master portion, Repayment threshold, Guarantor, Grace period elected, EMI tier

Right panel — Eligibility checks: - Six eligibility items, each with pass/fail icon and detail value - Any failed gate shows red notice with override option

Admin decision form: - Disbursement amount (pre-filled, editable for partial) - Decision selector: full approval / partial / reject - Admin notes textarea - Actions: Cancel, Reject request (danger), Confirm disbursement (primary)

2.5 Collection cycles

Purpose: Monitor and manage the current and historical collection cycles.

Filter chips: Cycle month selector | Current | Past cycles

Metric cards: Due (member count), Collected (count + SAR), Overdue (count + SAR), Exempt (count)

Member collection status table: - Columns: Member name, Due amount, Status chip, Collected amount, Days late, Fee tier chip, Actions - “Post manual” button appears for overdue members - “Run debit batch” primary action in top bar triggers the auto-debit pass

2.6 Disbursements

Purpose: Track and post loan disbursement tranches.

Table columns: Member + Loan ID, Approved amount, Disbursed to date, Remaining, Status chip, Actions

Statuses: Active (green) | Partially disbursed (amber) | Pending first disbursement (blue)

Actions per row: View loan (for active) | Disburse (for partial or pending)

Disburse tranche sub-page Info notice: Loan activates and schedule builds only after full amount disbursed.

Form fields: Loan ID (read-only), Member (read-only), Approved amount (read-only), Previously disbursed (read-only), Tranche amount, Fund tier (read-only), Notes

Actions: Cancel, Post disbursement (primary)

2.7 Reconciliation

Purpose: Monitor reconciliation batch results, resolve exceptions.

Metric cards: Open exceptions, Auto-resolved (last batch), Last batch run time, Next batch time

Critical notice bar: Shown when a CRITICAL exception is open (batch halted).

Exception queue table: - Columns: Exception type, Domain, Severity chip, Amount delta, SLA deadline (colour-coded), Actions (Resolve) - Sorted by severity descending

Auto-resolved table: - Columns: Exception type, Domain, Resolution type (Auto chip), Resolved timestamp

Resolve exception sub-page Left panel — Exception details: - Exception ID, Domain, Severity, Delta amount, Raised at, Auto-resolve attempted, Assertion that failed, Batch status

Right panel — Resolution action: - Action selector: Post rounding adj. / Reverse transaction / Reclassify / Write-off (disabled for CRITICAL) / Escalate / Override and accept - Correction amount - Reason code selector - Notes (mandatory for CRITICAL severity) - Actions: Cancel, Post resolution & resume batch

2.8 Bank clearing

Purpose: Match bank import lines to system cash account entries.

Metric cards: Imported today, Auto-matched, Unmatched (requiring action), Stale pending

Unmatched table: - Columns: Date, Bank reference, Amount, Exception type chip, Actions (Match manually / Adjust & clear)

Matched table: - Columns: Bank line description, Matched cash entry, Amount, Cleared chip

Top bar action: Import statement — triggers bank statement file upload

2.9 Reports

Layout: Two panels side by side.

Left panel — Standard reports (4 report cards): 1. Monthly collection report (per-member collection status, fees, exemptions) 2. Loan portfolio report (active, repaid, delinquent, all tiers) 3. Reconciliation summary (exceptions, resolutions, auto-resolve log) 4. Fund tier utilisation (availability, committed, disbursed per tier) Each card has a Download button.

Right panel — Custom report builder: - Report type selector - Date range (from / to) - Member filter (optional) - Format selector: PDF / Excel / CSV - Generate report button

2.10 Migration

Purpose: Manage migrated members — classify stubs, assign resolution methods, grant clearance.

Filter chips: All | Unresolved stubs | Pending clearance | Cleared

Table columns: Member name, Join date, Cutoff date, Total stubs, Unresolved count, Status chip, Actions (View / Resolve / Classify)

Batch classify button: Opens a form to apply a classification and resolution method to a date range for one or multiple members.

Member stub resolution sub-page: - Shows all stubs in a table with classification dropdowns per row or range - Resolution method selector per BACKDATED_DUE group - Clearance eligibility checklist - Grant clearance button (disabled until all mandatory conditions met)

2.11 Configuration

Purpose: Manage all system parameters. Organised into 5 tabs.

Tab 1 — Collection Fields: Collection window days, Late fee model (replacement/cumulative), Tier 1/2/3 day thresholds, Tier 1/2/3 fee amounts.

Tab 2 — Loans Fields: Minimum membership years, Minimum fund balance, Borrow multiplier, Max active loans per member, Settlement threshold %, Grace period options.

Tab 3 — Fund tiers Two sections: - EMI tier table: editable rows for Tier 1/2/3 — min amount, max amount, EMI per cycle - Fund tier allocations: Tier A/B/C/E percentage inputs

Tab 4 — Reconciliation Fields: Auto-resolve tolerance (SAR), Timing diff. defer hours, Bank match date range ($\pm$ days), Stale pending threshold days, Unbanked cash alert days.

Tab 5 — Guarantor rules Fields: Missed EMIs before warning (X), Missed EMIs before transfer (Y).

2.12 Audit log

Purpose: Immutable record of all admin actions, system events, overrides, and reconciliation entries.

Filter chips: All events | Admin actions | Overrides | Recon events | Loan events

Table columns: Timestamp, Event description, Actor (Admin / System), Entity (member ID, loan ID, etc.), Event tag chip

Event tag chips: - Recon (blue): reconciliation events - Auto (green): system auto-resolution - Loan (purple): loan lifecycle events - Migration (purple): migration events - Override (amber): admin override actions

Export: Full CSV or PDF export via top bar button.

Help	Contact support

3.2 Overview

Purpose: At-a-glance summary of member's full financial position plus the most time-sensitive alert.

Layout:

[Amber notice bar - next EMI due date and amount, if applicable]

[Cash account card (50%) | Fund account card (50%)]

[Active loan panel (55%) | Quick actions panel (45%)]

[Recent transactions table - full width]

Cash account card: - Large balance display - "Available balance" sub-label - Three action buttons: Deposit, Cash out, History - Navigates to respective pages on click

Fund account card (purple tint): - Large balance display (purple) - "Accumulated contributions · loan cap: SAR X" sub-label - Two action buttons: History, Statement

Active loan panel: - Loan amount, approval date, tier, EMI - Progress bar: repaid % of 18 EMIs - Repaid / remaining amounts under bar - Three detail chips: EMIs completed, Repayment threshold, Guarantor - Next EMI date and amount in summary cell - Partial settle + Full settle buttons

Quick actions (4 cards): 1. Deposit funds → Cash account 2. Request a loan → Loan request wizard (shows max eligible) 3. Cash out → Cash out page (shows available) 4. Settle loan → My loans / settle tab

Recent transactions table: - 4-5 most recent entries - Columns: Description, Date, Amount (colour-coded), Type chip (DR/CR) - "All →" link to transactions page

3.3 Cash account

Purpose: Full view of cash balance, deposit facility, and full cash transaction history.

Layout: Two panels top row, one full-width history panel below.

Balance panel (left): - Large balance figure - Detail grid: Pending clearance, Pending debit (next EMI reserved), Last deposit, Last debit

Deposit panel (right): - Blue info notice explaining direct vs bank transfer timing - Deposit method selector: Bank transfer (IBAN) / Direct cash deposit - Amount field - Reference / notes field - Confirm deposit button

Cash account history table: - Columns: Description, Date, Amount (colour-coded), Running balance, Status chip

3.4 Fund account

Purpose: Fund balance detail, contribution rate, borrow capacity, and fund history.

Balance panel (purple tint — full width): - Large purple balance figure - Detail grid: Monthly contribution amount, Borrow multiplier and max loan, Total contributions, Loan deductions (member portion), Contribution status (Active or Exempt), Exemption end condition

Fund account history table: - Columns: Description, Cycle month, Amount (colour-coded), Running balance

3.5 My loans

Purpose: View active loan schedule, loan history, and settle loans.

Three tabs: Active loans | Loan history | Settle loan

Active loans tab

- Full loan detail block: amount, approval date, tier, EMI
- Progress bar: repaid % toward threshold
- Repaid SAR / remaining SAR to threshold
- Six detail chips: EMIs completed, Threshold, Guarantor, Grace period, Fund tier, Next EMI
- Full repayment schedule table: Cycle, EMI due, Status chip, Collected amount
- “Settle loan” button navigates to Settle tab

Loan history tab

- Table: Loan ID, Amount, Status chip, Approved date, Repaid date
- Shows all historical and active loans

Settle loan tab Settlement type selector (two cards):

Full settlement card: - Shows exact outstanding threshold balance - Source selector (cash account with current balance) - Amber warning if balance insufficient (with “Deposit funds first” button) - Confirm full settlement button

Partial settlement card: - Partial amount input (min 1 EMI enforced) - Schedule treatment selector (two sub-cards): - Roll-up (compress): covered cycles marked settled, schedule shortens - Skip cycles: covered cycles skipped, gap inserted, total length preserved - Confirm partial settlement button

3.6 Loan request wizard

Purpose: Step-by-step loan application with eligibility pre-check, details, guarantor, and review.

Step indicator (4 steps, horizontal): Eligibility → Loan details → Guarantor → Review & submit

Active step highlighted in purple. Prior steps remain filled (indicating completion).

Step 1 — Eligibility

- Six check items with pass/warn/fail icons:
 1. Membership tenure
 2. Fund account balance
 3. No delinquency
 4. Active loan count (within limit)
 5. Borrow limit remaining
 6. (Any failed gate shows red with admin override note)
- Continue button (disabled if any hard fail)

Step 2 — Loan details

- Loan type selector: Standard / Emergency
- Requested amount (with max eligible shown)
- EMI tier (auto-filled and read-only based on amount)
- Grace period selector: 0 / 1 / 2 cycles
- Purpose textarea (optional)
- Live loan summary box:

- Requested amount, Member portion, Master portion, Repayment threshold, EMI per cycle, Estimated cycles
- Back / Continue buttons

Step 3 — Guarantor

- Guarantor member ID input
- Guarantor name (auto-filled on ID entry, read-only)
- Amber notice: liability explanation (what guarantor is liable for, and the trigger conditions)
- Back / Continue buttons

Step 4 — Review & submit

- Green success notice: all checks passed, queue position note
 - Full loan summary block (read-only)
 - Back / Submit loan request buttons
 - On submit → returns to Overview with amber notice confirming queue placement
-

3.7 Contribution history

Purpose: Full contribution cycle record including exempt cycles, late fees, and totals.

Metric cards (4): - Total contributed (SAR, since join) - This cycle status chip + amount - Cycles missed (count) - Cycles exempt (count)

Contribution history table: - Columns: Cycle month, Status chip, Amount due, Amount collected, Late fee applied, Days late

3.8 Transaction history

Purpose: Complete filterable transaction ledger across all account activities.

Filter chips: All | Contributions | EMI | Deposits | Late fees | Loan events

Transaction table: - Columns: Description, Date, Amount (green for CR, red for DR), Account (Cash/Fund), Type chip (DR/CR) - Filtered in real-time by chip selection

3.9 Cash out

Purpose: Request a withdrawal from the cash account to registered bank account.

Layout: Two panels side by side.

Cash out request panel (left): - Blue info notice: explains that cash out draws from cash account, not fund account; pending debits are reserved - Detail grid: Cash account balance, Reserved for next EMI, Available to withdraw, Processing time - Withdrawal amount field (max = available enforced) - Destination selector: registered IBAN or other - Notes field - Submit cash out request button

Cash out history panel (right): - Table: Date, Amount, Status chip

3.10 Statements

Purpose: Self-service statement generation and download of prior statements.

Layout: Two panels side by side.

Statement generator (left): - Statement type selector: Combined / Cash only / Fund only / Loan #ID / Contribution history - Period from / to date pickers - Format selector: PDF / Excel / CSV - Download statement button

Recent statements (right): - Table: Statement name, Period covered, Download PDF button per row

3.11 Settings

Four tabs: Profile | Notifications | Bank details | Security

Profile tab

- Full name, Member ID (read-only), Phone, Email
- Save changes button

Notifications tab

- Table of notification events with delivery selector per event:
 - EMI due reminder, Contribution debit, Late fee applied, Loan status updates, Deposit received
- Options per event: SMS + Email / Email only / SMS only / Off
- Save preferences button

Bank details tab

- Read-only display: Bank name, Account name, IBAN, Verified chip
- Edit button opens inline edit form

Security tab

- Current password, New password, Confirm new password
 - Update password button
-

3.12 Help & FAQ

Purpose: Self-service answers to the most common member questions.

Format: Expandable accordion items (click to expand/collapse).

FAQ items:

1. When is my contribution collected?
2. Why am I exempt from contributions?
3. How is my loan repayment threshold calculated?
4. What happens if I miss EMI payments?
5. How do I partially settle my loan?
6. How do I add funds to my cash account?
7. What is my guarantor responsible for?
8. How do I request a cash out?

Contact support button in top bar opens a support request form or contact details.

4. Shared components

Notice / alert bar

Used across both portals. Four variants (red, amber, blue, green). Always displayed above the first content panel on the page. Icon left, text right. Dismissible for info/success variants; persistent for warning/danger.

Status chip

Inline, compact, read-only. Colours defined in Section 1. Used in all tables and detail views.

Detail grid

Two-column key-value layout. Label in tertiary colour (10px), value in primary (12px, 500 weight). Used in all detail panels. Bottom border on each row; last two items have no border.

Progress bar row

Label (90px fixed), bar (flex), percentage (28px fixed right-aligned). Bar height 4–6px, rounded. Colour-coded by value range or domain.

Timeline

Vertical list with dot-and-line connector. Filled dot = recent/complete event. Open dot = older. Event title (12px, 500) + sub-text (11px, tertiary). Used in member detail profile tab and loan history.

Tabbed sub-page

Horizontal tab bar at top of panel content area. Active tab: primary colour bottom border (2px), 500 weight text. Each tab toggles a sub-page block below. Used in: Member detail, My loans, Loan request wizard (step indicator variant), Configuration, Settings.

Data table

Fixed table layout. Header row: 10px uppercase, 500 weight, secondary background. Body rows: 12px, 7px vertical padding, bottom border. Last row: no border. Hover: secondary background. Overflow: ellipsis with nowrap. Action buttons right-aligned in action column.

Form grid

Two-column responsive grid (collapses to single column on narrow viewports). Each field: label (11px, 500, secondary colour) above input. Input: 12px, 6px padding, secondary border, md border-radius, primary background. Textarea: resizable, 60px min height. All inputs full-width within their column.

Action row

Right-aligned flex row. Border-top separator, 10px top margin, 10px top padding. Order (left to right): Cancel / Back → secondary actions → primary action. Primary button always rightmost.

5. Access control & role rules

Admin portal — visible pages vs member portal

The following are **admin-only** and not accessible to members:

Admin-only page / data	Reason
Fund tier utilisation and allocation	Operational, not relevant to individual member
Loan queue for all members	Members only see their own requests
Reconciliation exceptions and resolution	Internal financial control
Bank clearing and import	Back-office operation
Audit log	Internal compliance
Configuration	System administration
Migration management	Admin-initiated operation
All member balances in aggregate	Privacy
Other members' account details	Privacy

Member portal — what members cannot see or do

Restricted action	Reason
View other members' data	Privacy
Approve or reject loan requests	Admin only
Post manual journal entries	Admin only
Access reconciliation	Internal
Change system configuration	Admin only
Override eligibility gates	Admin only
Grant clearance for migration	Admin only
Import bank statements	Admin only
View master account balances	Internal

Admin override actions requiring additional logging

All admin overrides must record: - The admin user ID - Timestamp - The gate or rule overridden - A mandatory reason (free text, minimum 10 characters) - The affected member / loan / exception ID

These entries appear in the Audit log under the “Overrides” filter.

Appendix — Page inventory summary

Admin portal

Page	Sub-pages / tabs	Key actions
Dashboard	—	Run batch, navigate to sub-systems
Members	List, Detail (5 tabs), New member	Add, View, Edit, Suspend, Override
Loan queue	List, Review/approve	Approve, Partial approve, Reject
Collection cycles	List view	Run debit batch, Post manual collection
Disbursements	List, Post tranche	Disburse tranche, View loan
Reconciliation	Exception queue, Resolve detail	Run batch, Resolve, Escalate, Write-off
Bank clearing	Unmatched, Matched	Import statement, Match manually, Adjust & clear
Reports	Standard reports, Custom builder	Download, Generate

Page	Sub-pages / tabs	Key actions
Migration	Member list, Stub resolution	Batch classify, Individual classify, Grant clearance
Configuration	5 config tabs	Save per tab
Audit log	Filtered table	Export

Member portal

Page	Sub-pages / tabs	Key actions
Overview	—	Navigate to sub-pages, quick deposit/cashout/loan/settle
Cash account	Balance + deposit form + history	Deposit, download history
Fund account	Balance detail + history	Download statement
My loans	Active (schedule), History, Settle	Full settle, Partial settle (roll-up or skip)
Loan request	4-step wizard	Submit request, save draft
Contributions	History table + metrics	Export
Transactions	Filterable ledger	Filter by type, Export
Cash out	Request form + history	Submit cash out
Statements	Generator + recent downloads	Generate, Download
Settings	Profile, Notifications, Bank, Security	Save per tab, Update password
Help & FAQ	Accordion FAQ	Expand answers, Contact support
