

FundFlow Member Portal — Product Specification

Field	Value
Version	1.0
Status	Draft — pending implementation sign-off
Panel	Filament member at <code>/member</code>
Related	Analysis & plan · Implementation plan · Prototype

1. Purpose & scope

1.1 Purpose

Define **what** the redesigned member portal must deliver: information architecture, member-facing behaviour, bilingual rules, communications, documents, and simple analytics — without prescribing implementation details (see [implementation plan](#)).

1.2 In scope

- Member panel UI/UX redesign (dashboard, navigation, pages, widgets)
- Consolidation of finance, loan, history, self-service, help, and settings surfaces
- Bilingual Arabic/English with RTL, Western digits, official Saudi Riyal sign (U+20C1) in Arabic
- All member-facing outputs: in-app notifications, email, SMS, WhatsApp, PDFs, CSV exports
- Value-add: communications center, deposit bank instructions, document downloads, dashboard insights
- Preservation of existing business capabilities: household, impersonation, guarantor loans, eligibility overrides, PWA hooks

1.3 Out of scope

- Tenant admin panel redesign
- Custom report builder or BI dashboards
- Announcement CMS / machine translation of message bodies
- Native mobile app (PWA remains)
- Changes to core accounting, loan posting, or collection business rules
- Admin broadcast bilingual fields (v1: free-text; documented expectation only)

1.4 Success definition

Members can answer within one dashboard view:

1. **What needs my attention now?**
 2. **What are my balances and obligations?**
 3. **What can I do next?**
-

2. Stakeholders & users

Role	Description
Member (borrower)	Primary user; linked User with member profile
Household parent	Member with dependents; may impersonate dependent portal
Guarantor	Member named on another member's loan; read-only exposure views

Role	Description
Fund administrator	Uses tenant panel; sends messages, reviews deposits, not a portal user

2.1 Access rules (unchanged)

User type	Member portal
Linked member, active portal status	Yes
Admin (<code>is_admin</code>)	No
Member in <code>PORTAL_BLOCKED_STATUSES</code>	No (logout on access)
Orphan user	No

Authentication: `tenant` guard, `/member/login`, household profile picker where applicable.

3. Glossary

Term	Meaning
Overview	Default dashboard; command center
Cash account	Member pool cash balance; deposits and debits
Fund account	Member fund balance; contributions and loan fund legs
Open period	Current contribution collection cycle
EMI	Loan installment collected per cycle
Reserved EMI	Next installment amount treated as unavailable for cash-out
Threshold	Loan repayment target (master portion + settlement %)
Communications center	Help page with Messages, Requests, Alert history
Western digits	0–9 Latin numerals in all locales
Saudi Riyal sign	Unicode U+20C1 (), official SAMA symbol in Arabic UI

4. Design principles

#	Principle
P1	Dashboard = command center — most actions start from Overview
P2	Sidebar = wayfinding — ~9 destinations, not 15
P3	Progressive disclosure — insights/household/guarantor collapsed by default
P4	One notice at a time — priority-ranked contextual banner
P5	No duplicate heroes — list pages do not repeat dashboard KPI blocks
P6	Mobile first — critical actions without horizontal scroll
P7	Bilingual by default — en/ar on every touchpoint, same PR as UI
P8	Filament stays — redesign is presentation + IA, not a new SPA

5. Information architecture

5.1 Navigation structure

Profile block (avatar, member #, since, status chip)

- Overview
- My accounts
 - Cash account
 - Fund account
- Loans
 - My loans [active count badge]
 - Request a loan
 - Guaranteed loans [conditional]
- History
 - Contributions
 - Activity
- Self-service
 - Cash out
 - Statements
- Help [unread badge]
 - Communications & FAQ
- Settings
 - Profile & preferences

5.2 Navigation migration

Current item	Target
My Deposits	Cash account
My Accounts	Split → Cash + Fund
My Cash-Outs	Cash out page
Loan calculator	Inline in Request a loan
Contribution settings	Settings tab
Notification preferences	Settings tab
Support & requests	Help → Requests tab
Messages (ungrouped)	Help → Messages tab
Business calendar testing	Removed from member nav
My dependents	Overview household + Settings (parents)

5.3 URL compatibility

Bookmarked URLs for retired list pages **must redirect** to the new canonical page for at least one release cycle.

6. Functional requirements — Overview (dashboard)

FR-DASH-01 Priority notice

The system shall display **at most one** priority notice at the top of Overview, selected by this order:

1. Delinquent or suspended member status
2. EMI due within configurable N days (amount + link to loan)
3. Contribution due or insufficient cash for open period
4. Pending deposit or cash-out awaiting admin action

5. Unread admin message
6. Pending loan eligibility override
7. Informational (e.g. contribution exempt during active loan repayment)

FR-DASH-02 Balance panels

The system shall show a two-column balance section:

Cash panel	Fund panel
Available balance	Fund balance
Reserved for next EMI (if applicable)	Monthly contribution
Available to withdraw (cash – reserved)	Borrow headroom (fund $\times$ multiplier)
Actions: Deposit, Cash out, History	Actions: History, Statement

Fund panel shall use distinct visual treatment (purple gradient per design system).

FR-DASH-03 Loan or eligibility panel

- **If active loan:** progress to threshold, EMI chips, guarantor, next due, actions Partial settle / Full settle
- **If no active loan:** eligibility summary + Request a loan CTA

FR-DASH-04 Quick actions

Up to five quick-action rows: Deposit, Request loan (with max eligible), Cash out (with available amount), Download statement, Messages or Guaranteed loans (contextual).

FR-DASH-05 Recent activity

Last 5–8 ledger events: description, date, credit, debit, type chip; link to full Activity page.

FR-DASH-06 Expandable sections (collapsed by default)

Section	Condition
My insights	Always available; collapsed on mobile
Household	Parent with dependents or separated member
Guarantor exposure	Member is guarantor on 1 active loan

FR-DASH-07 Pending actions

Operational list (not analytics): pending deposit, pending cash-out, pending loan application, unread messages — with deep links.

FR-DASH-08 Polling

Dashboard data may refresh on a 60s poll interval (existing behaviour preserved unless changed in implementation).

7. Functional requirements — pages

7.1 Cash account (FR-CASH-*)

ID	Requirement
FR-CASH-01	Show balance, pending clearance, reserved EMI, last deposit/debit
FR-CASH-02	Embed deposit request form (amount, date, reference, attachment, comments)
FR-CASH-03	Show fund bank transfer instructions (bank name, IBAN, member reference) from tenant settings
FR-CASH-04	Fallback message when bank details not configured
FR-CASH-05	Full-width cash transaction history table
FR-CASH-06	Deposit history (pending/accepted/rejected) as subsection or integrated list
FR-CASH-07	Optional: copy IBAN to clipboard

7.2 Fund account (FR-FUND-*)

ID	Requirement
FR-FUND-01	Gradient hero with fund balance
FR-FUND-02	Detail grid: monthly contribution, borrow multiplier, total contributed, loan deductions, exemption status, exemption end
FR-FUND-03	Fund ledger history table

7.3 Loans hub (FR-LOAN-*)

ID	Requirement
FR-LOAN-01	Tabbed hub: Active History Settle Apply
FR-LOAN-02	Active: loan cards with installment schedule inline
FR-LOAN-03	History: completed/cancelled loans
FR-LOAN-04	Settle: full/partial settlement (existing business rules)
FR-LOAN-05	Apply: multi-step wizard (eligibility → details → guarantor → review)
FR-LOAN-06	Loan calculator accessible from Apply flow, not standalone nav
FR-LOAN-07	Guaranteed loans: separate nav when count > 0; read-only exposure

7.4 Contributions (FR-CONT-*)

ID	Requirement
FR-CONT-01	Four stat cards: total contributed, this cycle, cycles missed (12 mo), cycles exempt
FR-CONT-02	Contribution history table with status chips
FR-CONT-03	Apply open-period contribution action where permitted
FR-CONT-04	No duplicate dashboard-style insights hero

7.5 Activity (FR-ACT-*)

ID	Requirement
FR-ACT-01	Unified feed: cash + fund + loan events

ID	Requirement
FR-ACT-02	Filter chips: All, Contributions, EMI, Deposits, Late fees, Loan events, Cash outs
FR-ACT-03	Localized transaction descriptions via reference type map
FR-ACT-04	Credit/debit columns with signed amount styling

7.6 Cash out (FR-CO-*)

ID	Requirement
FR-CO-01	Two-column layout: request form history
FR-CO-02	Prominent available balance = cash – reserved EMI
FR-CO-03	Show payout destination (registered IBAN) when stored
FR-CO-04	Submit via existing MemberCashOutService rules

7.7 Statements & documents (FR-DOC-*)

ID	Requirement
FR-DOC-01	List monthly statements with PDF download (existing route)
FR-DOC-02	Download center: activity CSV (date range)
FR-DOC-03	Download center: loan schedule PDF (active loan)
FR-DOC-04	Optional v1.1: contributions CSV export
FR-DOC-05	Optional v1.1: deposit receipt after acceptance
FR-DOC-06	CSV: UTF-8 BOM, translated headers, Western digits

7.8 Help & communications (FR-HELP-*)

ID	Requirement
FR-HELP-01	Single Help nav item with unread badge
FR-HELP-02	Tab: Messages — embed existing message threads
FR-HELP-03	Tab: Requests — support tickets + household member requests
FR-HELP-04	Tab: Alert history — read-only notification_logs for current user
FR-HELP-05	FAQ accordion (prototype Q&As in lang files; tenant override later)
FR-HELP-06	Alert history: no resend; paginated; channel + status columns

7.9 Settings (FR-SET-*)

ID	Requirement
FR-SET-01	Tabbed page: Profile, Contributions, Notifications, Security, Payout details
FR-SET-02	Profile: view/edit identity, household context
FR-SET-03	Contributions: monthly amount + dependent allocations
FR-SET-04	Notifications: per-category channel preferences (existing service)
FR-SET-05	Payout details: read-only; “Contact support to update”
FR-SET-06	Security: password change if exposed to members

7.10 Household (FR-HH-*)

ID	Requirement
FR-HH-01	Overview expandable household block for parents
FR-HH-02	Dependent impersonation entry from household block
FR-HH-03	Return-to-parent banner when impersonating (existing)
FR-HH-04	Dependent management not duplicated as top-level nav for all users

8. Functional requirements — analytics (simple)

ID	Requirement
FR-AN-01	No separate Analytics navigation item
FR-AN-02	Expandable “My insights” on Overview: 6-month contribution sparkline
FR-AN-03	Stat chips: YTD contributed, YTD repaid, borrow headroom, cycles missed (12 mo)
FR-AN-04	Guarantor one-liner when applicable
FR-AN-05	Hide insights section when member has no meaningful history (empty state)

9. Non-functional requirements

9.1 Internationalization (NFR-I18N-*)

ID	Requirement
NFR-I18N-01	Locales: en (default), ar
NFR-I18N-02	Language switch persists to <code>User.preferred_locale</code>
NFR-I18N-03	All user-visible strings translatable; keys in <code>lang/ar.json</code> same PR as UI
NFR-I18N-04	Western digits only in all numeric display (0–9)
NFR-I18N-05	English currency: SAR prefix — e.g. SAR 3,240.00
NFR-I18N-06	Arabic currency: U+20C1 () prefix via <code>__('SAR')</code> — e.g. 3,240.00
NFR-I18N-07	Do not use <code>.</code> or U+FDFF in new work
NFR-I18N-08	RTL layout for ar ; logical CSS properties in new components
NFR-I18N-09	Async outputs use recipient <code>preferred_locale</code> , not sender/cron default

9.2 Performance (NFR-PERF-*)

ID	Requirement
NFR-PERF-01	Dashboard snapshot composable without N+1 on member, accounts, active loan
NFR-PERF-02	Activity feed paginated (default 25 rows)
NFR-PERF-03	CSV export streamed for ranges 24 months

9.3 Security (NFR-SEC-*)

ID	Requirement
NFR-SEC-01	All queries scoped via <code>CurrentMember</code> / <code>member_id</code>
NFR-SEC-02	Alert history: only own <code>notification_logs</code> rows
NFR-SEC-03	Statement PDF: only own <code>MonthlyStatement</code> records
NFR-SEC-04	Activity export: only own transactions

9.4 Accessibility (NFR-A11Y-*)

ID	Requirement
NFR-A11Y-01	Notice banners use semantic colour + text (not colour alone)
NFR-A11Y-02	Focus order correct in RTL
NFR-A11Y-03	Amount fields expose <code>inputmode="decimal"</code> where appropriate

9.5 Compatibility (NFR-COMP-*)

ID	Requirement
NFR-COMP-01	Mobile viewports 320px+ usable without horizontal scroll for primary actions
NFR-COMP-02	Saudi Riyal sign font bundled for browsers without U+20C1 glyph
NFR-COMP-03	PWA and Arabic font hooks preserved

10. Member-facing outputs specification

10.1 Channels

Channel	Localized at send/render	Western digits	Currency symbol
Portal UI	Request locale	Yes	__('SAR')
Database	Recipient locale	Yes	__('SAR')
notifications			
Email	Recipient locale	Yes	__('SAR')
SMS /	Recipient locale	Yes	__('SAR')
WhatsApp			
Monthly statement	Request locale	Yes	__('SAR')
PDF			
Activity	Request locale	Yes	N/A in cells
CSV			
Loan schedule	Request locale	Yes	__('SAR')
PDF			
Direct message UI	Request locale	Yes	—
chrome			
Message body	Author language	—	—
Support request UI	Request locale	Yes	—

10.2 Notification categories (member)

Contributions, loan repayment, loan activity, loan alerts, account alerts, statements, allocations, broadcasts (admin free-text).

Preferences respected per `NotificationPreferenceService` and `MemberCommunicationPreference`.

10.3 PDF requirements

- HTML `dir="rtl"` when Arabic
- Section headings translated
- Transaction descriptions from `Transaction::memberFacingDescription()` (not raw DB English)
- Arabic-capable font including U+20C1
- Footer disclaimer from tenant `StatementSettings`

11. Visual design specification (summary)

Reference: [prototype](#). Full tokens in [implementation plan](#).

Token	Hex	Use
Primary	#534AB7 / #3C3489	CTAs, active nav (member panel only)
Success	#1D9E75	Credits, collected
Warning	#EF9F27	Due soon, reserved EMI
Danger	#E24B4A	Debits, arrears
Info	#378ADD	Informational notices

Component	Spec
Panel	14px radius, head/body split, optional “Details” link
Notice	amber / blue / green / red variants
Chip	green, amber, red, blue, purple, gray status pills
Quick action	Icon square + title + subtitle row
Typography	~13px base; amounts 22–34px bold

11.1 Filament chrome overrides (Phase 1)

All member panel Filament surfaces (forms, tables, buttons, sidebar, topbar) shall be restyled to match the prototype via `member-portal-chrome.css`, scoped under `.fi-panel-member` only. See [implementation plan §4.4](#).

Surface	Prototype fidelity target
Page background	#f9fafb (gray-50)
Sidebar nav	Compact 12px items; uppercase group labels; active gray pill
Form fields	8px radius, 12px font, purple focus ring
Primary buttons	Purple #534AB7, 9px radius
Data tables	Compact 12px; pale header row; subtle row hover
Tabs / filter chips	Primary underline / filled chip when active

Acceptance: Side-by-side screenshot review vs prototype at 375px and 1280px before Phase 2 merge (forms + tables on any member list page minimum in Phase 1).

Admin tenant panel retains existing Emerald theme.

12. Acceptance criteria (release)

12.1 Overview

- ☐ Single priority notice renders per ranking rules
- ☐ Cash and fund panels show correct balances and actions
- ☐ Active loan panel or eligibility CTA renders correctly
- ☐ Quick actions deep-link to working flows
- ☐ Recent activity matches ledger

12.2 Navigation

- ☐ 10 sidebar items for typical member (no Business Day Testing)
- ☐ Old deposit URL redirects to Cash account
- ☐ Guaranteed loans hidden when count = 0

12.3 Bilingual

- ☐ Full pass in **en** and **ar** on dashboard, cash, loan, help
- ☐ No Arabic-Indic digits in rendered amounts
- ☐ visible in Arabic with bundled font
- ☐ RTL layout intact on mobile

12.4 Outputs

- ☐ Sample notification renders correct locale in DB + email snapshot test
- ☐ Statement PDF downloads in member locale
- ☐ Activity CSV opens correctly in Excel with Arabic headers

12.5 Value-add

- ☐ Alert history shows only member's rows
- ☐ Bank instructions on cash page when configured
- ☐ Insights expandable shows YTD stats
- ☐ FAQ accordion renders in both locales

12.6 Prototype visual fidelity (Phase 1+)

- ☐ Member panel page background matches prototype gray-50
- ☐ Form inputs: 8px radius, purple focus, 11px labels
- ☐ Primary buttons purple; outline/gray secondary match prototype
- ☐ Tables: compact header row, 12px body, hover state
- ☐ Sidebar profile block matches prototype layout
- ☐ No visual regressions on tenant admin panel (scoped CSS only)

12.7 Regression

- ☐ Deposit submit → admin accept flow unchanged
 - ☐ Cash-out, loan apply, contribution apply, impersonation still work
 - ☐ Existing Pest member portal tests pass or updated
-

13. Open decisions (product)

ID	Question	Default recommendation
OD-01	Password self-serve in Settings?	Yes if User password reset already supported
OD-02	Cash vs Fund: two pages or one resource with tabs?	Two pages
OD-03	Admin broadcast bilingual fields?	Defer; document admin practice
OD-04	Contributions CSV in v1?	Phase 8b optional
OD-05	Deposit receipt PDF in v1?	Phase 8b optional

14. Document history

Version	Date	Change
1.0	2026-06-18	Initial specification from redesign analysis
