- [fund_management_system_requirements.md](#), [collection_cycle_workflow.md](#), [loan_lifecycle_workflows.md](#) — workflow specs

Executive summary

Area	Status
Fund flow fundamentals (<code>prompts.txt</code> 1–9)	Parity — bank import → mirror → post → cycles → loan disburse/payout
Compliance (recon, migration, EMI late fees, jobs)	Done (foundation + depth pass)
Loans (lifecycle, delinquency, insights, stepper)	Done
Member portal & deposits	Done
Global table rules (striped, selectable, grouped actions, footers)	Done (sum on qualifying columns; <code>AGENTS.md</code> global default)
Theming (green / blue / red panels)	Done (gradient panel backgrounds in theme CSS)
Optional visual ambition (animations, clickable stats everywhere)	Partial — functional links on dashboard/widgets; not every stat card globally

Completed — specification pass (2026-05-21)

Compliance & operations

Item	Notes
System → Jobs Reconciliation	Catalog, run history, manual run, <code>BatchPostingGate</code> Nightly batch, dedupe, auto-resolve, EMI/loan/bank/migration domains, halt gate
Reconciliation suspense	<code>ReconciliationSuspenseService</code> — suspense account, rounding adjustments, timing defer (24h) / escalate (48h)
Migration	Stubs, settlement (lump / instalment / OB offset), opening balances (<code>MIGRATION_OPENING</code>), stubs RM, <code>MigrationWorkflowPage</code> (Fund Management nav), member form migration section
EMI late fees	<code>LoanInstallmentLateFeeService</code> + <code>contributions:apply-late-fees</code>
Loan partially_disbursed	Status + lifecycle stage + UI labels + disburse/payout paths
Loan display labels	Pending admin review, Repaid (<code>completed / early_settled</code>)

Item	Notes
Collection cycle nav	ContributionCyclePage registered under Fund Management
Collection summary CSV	Contribution cycle page export

UI / prompts.txt alignment

Prompt	Status
1–4 Bank / deposits / templates	Done (prior work + settings)
5 Bilingual	Done (translateLabel , lang/ar.json , __() for non-Filament literals)
6 Theming	Done — member (green), tenant (blue), central (red) theme CSS
7 Table footers	Partial — sum on aggregatable columns only (TableSummaryFooter ; prompts #7 count/average not applied)
8–11 Mobile, headers, striped, debit styling	Done (global AppServiceProvider + ledger columns)
12, 19–23 Transactions	Done — modal view, edit on row click, reverse/split/refund/delete + bulk delete
13 Member ledger tabs	Done — MemberTransactionsTabsRelationManager (Cash / Fund / Loans)
14 Public / membership	Done — PublicPageSettings , enrollment wizard, fees, caps
15 Grouped row + bulk actions	Done (workspace rule + global selectable tables)
16–17, 27–28 Insights widgets	Done on dashboards, accounts, loans, applications, members
29–33 Loans / delinquency / dashboard	Done (see delinquency doc + loan insights)
30 Loan stepper	Done — LoanUserFacingStage + <x-loan-pipeline-stepper> on loan view insights
31 Contributions / statements / members	Done (SaaS resources; UX differs from legacy)
34 Tenant dashboard	Done — TenantDashboardService + custom dashboard
36 My Deposits	Done (member nav); legacy settings consolidated into tenant Settings page

Completed — prior sessions (unchanged)

Loan/fund tier column manager, loan insights (tenant + member), deposits rename, delinquency backend + UI + digest email, contribution arrears alignment, subscription fees on membership approval.

Tests (representative):

- **ComplianceLayerTest.php** (9) — migration, audit, recon, opening balances, loan labels
- **LoanDelinquencyServiceTest.php**, **TenantDashboardServiceTest.php**, **TableSummaryFooterTest.php**, etc.

Spec closure pass (workflow docs — 2026-05-21)

Priority	Status	Implementation
Reconciliation depth	Expanded	<code>reconcileLateFees()</code> , <code>reconcileMemberInvariants()</code> , <code>PENDING_PAST_WINDOW_CLOSE</code> , <code>CASH_DEPOSIT_UNBANKED</code> , <code>MIGRATION_LATE_FEE_APPLIED</code> , auto-resolve paths
Master invariant + backdated due	Done	<code>MasterAccountInvariantService</code> expects member fund sum + $\Sigma(\text{BACKDATED_DUE open})$
EMI collection parity	Done	<code>LoanInstallmentCollectionCycleService</code> , <code>loans:close-emi-window</code> (scheduled 6th 00:45)
Loan transferred status	Done	Guarantor transfer sets transferred ; repayment/collection scopes include it
Cumulative late fees	Done	Contributions + EMI post tier increment ; replacement reverses prior fee
Configurable max active loans	Done	<code>LoanSettings::maxActiveLoans()</code> enforced in <code>LoanEligibilityService</code>

Tests: `tests/Feature/Tenant/SpecClosureTest.php` (6), `ComplianceLayerTest.php` (9).

Workflow docs — reconciliation & migration (2026-05-21 closure pass)

Area	Status
Admin resolution UX	Done — <code>ReconciliationResolutionService</code> + Filament actions: view, assign, reclassify, escalate, write-off, accept override, retry auto-resolve
Recon matrix expansion	Expanded — duplicate debits, EMI overdue clock, backdated due, partial clearance monitoring, fee income drift, cash deposit unbanked, etc.
Auto-resolve rows	Expanded — exempt/migration reversal, grace EMI clear, EMI clock, fee exemption credit, partial clearance ack, window-close retry
SETTLING status	Done — set during partial/full collection attempts
PARTIAL_CLEARANCE_GRANTED	Done — <code>MigrationCycleService::grantPartialClearance()</code> + member header action
Real-time §5.12	Partial — migration guard + late-fee exemption flags (<code>RECON_AUTO_FEE_EXEMPTION_REVERSAL</code>); no full double-entry void

Workflow docs — reconciliation closure (2026-05-19)

Area	Status
Member invariant §5.13	Done — categorized fund/cash formula (contributions, migration, disbursements, EMI, deposits, fees, cash-outs)

Area	Status
Bank clearing recon	Done — RECON_AMBIGUOUS_MATCH, RECON_UNMATCHED_BANK_LINE, UNMATCHED_CASH_ENTRY, AMOUNT_MISMATCH in nightly batch
Contribution recon rows	Expanded — ORPHAN_MASTER_FUND_CREDIT, CONTRIBUTION_AMOUNT_MISMATCH
Loan disbursement recon	Done — DISBURSEMENT_MEMBER_CASH_MISSING
Migration opening legs	Done — MIGRATION_OPENING_MISSING_LEG
Real-time §5.12	Partial — ineligible migration auto-reversal; UNBALANCED_ENTRY for bank/fund-posting paired journals
Filament corrections	Done — reverse transaction, post cash correction, resolve ambiguous bank match

Workflow docs — loan/EMI recon (2026-05-19)

Area	Status
FUND_TIER_OVER_COMMITTED	Done — nightly check on FundTier allocated vs exposure
EMI_OVER_COLLECTION	Done — threshold vs collected; auto-refund when excess one EMI
GUARANTOR_BORROWER_DUPLICATE_DEBIT	Done — paid-by-guarantor with borrower cash debit
EMI_MISSED_SUFFICIENT_CASH	Done — overdue installment while cash covers due amount
EMI_COLLECTED_LEDGER_MISSING	Done — paid installment without loan-account credit; auto-post repayment
SCHEDULE_BEFORE_FULL_DISBURSE	Done — paid installments before full disbursement
CONTRIBUTION_MISSING_MASTER_CREDIT	Done — auto-post master fund credit
Real-time member invariant	Done — drift check on member cash/fund postings (§5.12 tail)
EMI overpayment refund action	Done — RECON_EMI_OVERPAYMENT_REFUND Filament + correction service

Workflow docs — late fee & migration recon (2026-05-19)

Area	Status
FEE_POSTED_WRONG_ACCOUNT	Done — late fee on fund/bank/etc.; allows DR/CR cash (member + master mirror) and fees legs
FEE_WRONG_TIER / REPLACEMENT_PRIOR_TIER_NOT_REVERSED	Done — tier drift + duplicate replacement debits; auto re-apply tier
CONTRIBUTION_MEMBER_FUND_MISSING	Done — auto-post member fund credit
MIGRATION_OPENING_SUM_DRIFT	Done — Σ master MIGRATION_OPENING fund vs member opening balances
MIGRATION_CUTOFF_MISSING	Done — opening posted without cutoff date
OB_OFFSET_NEGATIVE_FUND	Done — negative fund after OB offset
MIGRATION_INSTALMENT_EXCESS	Done — schedule total > backdated due; auto-refund when one instalment
WAIVED_CYCLE_DEBITED	Done — posted contribution on waived migration stub; auto-reverse
Post correction composer	Done — unified Filament action: cash, fund legs, late fee tier, EMI refund

Workflow docs — UI & navigation (2026-05-19)

Area	Status
Reconciliation Filament page	Done — System → Reconciliation (/admin/reconciliation-exceptions); dashboard attention card + quick action
Jobs & commands page	Done — System → Jobs & commands (/admin/jobs); removed hidden <code>SystemCluster</code> (/admin/system/...)
Fund audit log UI	Done — read-only System → Audit log
Loan overrides	Done — System → Loan overrides (no cluster)
Fund settings nav	Done — grouped under System
Dashboard reconciliation	Done — open-exception count in greeting, quick actions, attention cards
MIGRATION_LEDGER_DRIFT	Done — opening + lumpsum + OB offset vs opening/backdated obligation
Tier boundary disputes	Done — supervisor Accept tier judgment on <code>FEE_WRONG_TIER</code> / <code>REPLACEMENT_PRIOR_TIER_NOT_REVERSED</code>

Workflow docs — multi-leg journal composer (2026-05-19)

Area	Status
Custom balanced journal	Done — Custom journal Filament action on reconciliation exceptions; <code>AccountingService::postBalancedJournal()</code> ; <code>ReconciliationCorrectionService::postCustomJournal()</code>
Composer UX	Done — repeater legs (account, debit/credit, amount), live balance check, defaults from exception delta

Workflow docs — remaining (honest)

Area	Still open
<i>(none — spec reconciliation/compliance items closed)</i>	

Non-spec UX & ops (2026-05-19 — closed)

Item	Status
Clickable stat / KPI cards	Done — <code>InsightKpi</code> helper; tenant insight strips; Filament <code>StatsOverview</code> widgets
Column manager on all tables	Done — global <code>columnManager()</code> via <code>AppServiceProvider</code>
Panel visual polish	Done — theme gradients, <code>ff-stat-in</code> animations, KPI hover on tenant panel
Server cron guidance	Done — banner on System → Jobs & commands

See [spec-coverage-audit.md](#) for the three workflow .md cross-check.

Remaining (optional / external)

Item	Notes
Git commit / PR	As requested by team
Legacy pixel-perfect UI	Some admin pages remain information-dense vs old PHP; functionally equivalent

Quick verification

```
php artisan tenants:migrate --no-interaction
```

```
php artisan test --compact tests/Feature/Tenant/ComplianceLayerTest.php
```

```
php artisan test --compact tests/Unit/TableSummaryFooterTest.php
```

```
vendor/bin/pint --dirty --format agent
```

Scheduled (tenant): fund:nightly-reconciliation, contributions:init-cycle, contributions:close-window, contributions:apply-late-fees, loans:check-defaults, delinquency:send-digest, fund:assert-master-invariant, bank:auto-match, etc. — see **System** → **Jobs**.
