

FundFlow Member Portal — User Manual

This manual explains how members use the **member portal** to view balances, pay contributions, manage loans, request deposits and cash-outs, and communicate with fund administrators.

Portal URL: <https://<your-fund-domain>/member>

Sign in: Use the email and password (or household login) provided when you joined.

For a short navigation map, see also [member-portal.md](#).

 15. [Common questions](#)
-

1. Getting started

1.1 Signing in

1. Open `/member/login`.
2. Enter your email and password.
3. If your household uses **profile selection**, choose your profile and enter your PIN or password when prompted.

1.2 Who can use the portal

You must have a **member profile** linked to your login. The portal is for members only — fund administrators use a separate admin area.

1.3 If you cannot sign in

Your access may be restricted when your membership status is **inactive**, **delinquent**, **suspended**, **withdrawn**, or **terminated**. The login screen will show a message. Contact the fund office if you believe this is an error.

1.4 Language

Use the **language switch** in the top bar to change between English and Arabic where supported.

2. Understanding your accounts

FundFlow keeps two balances for each member:

Account	What it is	Typical uses
Cash	Money available in your member wallet	Deposits, contributions, loan repayments, cash-out
Fund	Your equity share in the pool	Loan eligibility, funding split on new loans

Important distinctions:

- **Cash out** draws from **cash**, not fund.
- **Loan maximum** is usually based on your **fund balance** ($\times$ a borrow multiplier set by the fund).
- **Contributions** move money from cash $\rightarrow$ fund when collected.
- **Loan disbursement** credits your cash (after debiting your fund share).

On the cash account page you may see:

- **Available to withdraw** — cash you can request for payout.
- **Reserved for next EMI** — cash set aside for an upcoming loan installment so you do not accidentally spend it.

3. Dashboard overview

Menu: Overview (home) $\rightarrow$ /member

The dashboard shows:

- Greeting and any fund notices
- Key figures: cash, fund, loan outstanding, contribution status
- **Quick actions**, for example:
 - Submit a deposit
 - Apply for a loan (if eligible)
 - Open statements
 - Go to cash or fund account
 - Open messages

Use the dashboard as your starting point each month to check whether your **contribution for the open cycle** is posted.

4. Cash account

Menu: My Accounts $\rightarrow$ **Cash account** $\rightarrow$ /member/cash-account

What you can do

Action	Description
View balance	Current cash and available amounts
View ledger	Recent cash movements
Submit deposit	Request a bank transfer to the fund (admin review required)
Request cash out	Shortcut to the cash-out request form

Action	Description
View deposit history	Status of past deposit requests

Submitting a deposit

1. Enter **amount** and **transfer date** (cannot be in the future).
2. Add **reference** (bank reference if you have one).
3. Attach **receipt** (PDF or image, max 5 MB) if available.
4. Add comments for the admin.
5. Submit.

After submit: Status is **pending** until an administrator accepts the deposit. Cash is **not** credited until acceptance.

Bank transfer details for the fund are shown on the deposit form.

5. Fund account

Menu: My Accounts → **Fund account** → `/member/fund-account`

What you see

- Fund balance
- Monthly contribution amount
- Total contributed (historical)
- Loan-related fund movements
- **Loan cap** (maximum you can borrow based on fund × multiplier)
- **Open-period contribution status** (posted / pending / exempt)
- Link to monthly statements

The fund account is **read-only** for movements — contributions and loan activity post through the collection and loan workflows.

6. Contributions

Menu: History → **My Contributions** → `/member/my-contributions`

Viewing history

The table lists each period with amount, status, and posted date. Use filters to find a specific month or year.

Applying this period's contribution

When the **collection cycle is open** and you have enough cash, you may see **Apply this period**.

Outcome	Meaning
Applied	Full contribution collected from your cash
Insufficient cash	Not enough cash to post the contribution
Already contributed	This period is already posted
Exempt	You are exempt for this cycle

This action debits your **cash** and credits your **fund** (same as admin collection).

Changing your monthly amount

Go to **Settings** → **Contributions** tab to change your monthly contribution tier. Changes may be blocked if your household has **unpaid arrears**. Administrators are notified when you change your tier.

7. Loans

7.1 My loans

Menu: Loans → **My loans** → /member/my-loans

Tabs typically include:

- **Active** — loans currently repaying
- **History** — completed or settled loans
- **Settle** — early settlement options
- **Apply** — shortcut to new application

Open a loan to see installments, schedule PDF, and repayment actions.

7.2 Request a loan

Menu: Loans → **Request a loan** → /member/apply-for-loan

Wizard steps: Amount → Purpose → Witnesses → Review → Submit

Before you apply, check:

- You are **eligible** (fund balance, membership tenure, no blocking status).
- You do not already have a **pending application**.
- You know the **maximum amount** shown (from fund balance).
- If the amount exceeds your fund balance, you may need a **guarantor** (per fund rules).

After submit, the application is **pending admin review**. You cannot edit it from the portal.

If blocked, you may **request an eligibility review** from the loans hub.

7.3 Pay this period (EMI)

On an **active** loan, use **Pay this period** to pay the open installment from your **cash** balance.

7.4 Early settlement

From the loan detail or settle tab, request **early settlement** if the fund allows it. Follow the on-screen amount and confirmation.

7.5 Loan calculator

Menu: Loans → **Loan calculator** → /member/loan-calculator

Estimate installments by amount and fund balance. This is **informational only** — actual terms are set on approval.

7.6 Guaranteed loans

Menu: Loans → **Guaranteed loans** (only if you are a guarantor on active loans)

View-only list of loans where you are guarantor.

8. Deposits

Menu: Self-Service → **My Deposits** → /member/my-fund-postings

Alternative path: submit from **Cash account** page.

Field	Rule
Transfer date	Today or earlier
Amount	As transferred
Attachment	Optional receipt (image/PDF)
Status	Pending → Accepted or Rejected by admin

All deposits require **administrator acceptance** before cash is credited.

9. Cash out

Menu: Self-Service → **Cash out** → /member/my-cash-out-requests

Requesting a payout

1. Open **New request** or use the shortcut on the cash account.
2. Review **available balance** (after EMI reserve).
3. Enter **amount** and optional notes.
4. Submit.

Rules:

- Payout comes from **cash only**.
 - You need a **registered IBAN** in Settings → Payout details (contact support to update IBAN).
 - Status: **Pending** → **Accepted** or **Rejected** with admin remarks.
 - After acceptance, the fund transfers to your bank; this may take a few business days.
-

10. Statements and activity

Monthly statements

Menu: Self-Service → **Statements** → /member/my-statements

- View generated statements by period.
- **Download PDF** for each month.
- Download center may also offer latest statement, loan schedule PDF, and activity export.

PDF routes: /member/statements/{id}/pdf, /member/loans/{id}/schedule/pdf

Transaction activity

Menu: History → **Transactions** → /member/activity

Filterable feed of cash, fund, and loan ledger lines. Use **Export** for a spreadsheet download (/member/activity/export).

11. Settings and profile

Menu: Self-Service → **Settings** → /member/settings

Profile tab

View member number, status, household profiles. **Edit profile** (/member/edit-profile) for name, phone, email, language, avatar, password, and parent PIN.

Email change: Must be unique. Changing email may affect dependent login setup.

Contributions tab

Change monthly contribution tier (see §6).

Notifications tab

Choose how you receive alerts (email, database, push where enabled). Some channels may be required by the fund.

Payout tab

View registered **IBAN** for cash-out. Contact support to change bank details.

12. Help, messages, and requests

Menu: Self-Service → **Help & FAQ** → /member/help

Tab	Purpose
Messages	Inbox with administrators; compose with attachments
Requests	Submit a support request (category, subject, message)
Alert history	Past fund alerts sent to you
FAQ	Common questions

Unread messages show a badge on **Help & FAQ**.

13. Household and dependents

Menu: Self-Service → **My dependents** (household heads only)

If you are the **parent** member in a household:

- View dependents and their contribution allocations
 - **Apply for a dependent** (links to membership wizard)
 - Update dependent contribution amounts
 - **Switch profile** to act as a dependent (requires their PIN/password)
 - Use **Return to parent portal** in the user menu when impersonating
-

14. What you cannot do in the portal

Members cannot:

- Accept their own deposits or cash-outs
- Post manual ledger adjustments
- Approve loans or change loan terms
- Clear bank statement lines
- See other members' data

These are **administrator** functions.

15. Common questions

Why is my cash balance zero after I transferred money?

Your deposit is probably still **pending**. Check **My Deposits** until status is **Accepted**.

Why was my contribution not collected?

Common reasons: insufficient cash, cycle not open yet, exempt status, or you need to click **Apply this period**.

Why can't I apply for a loan?

Check eligibility message on the apply page: pending application, low fund balance, delinquent status, or missing guarantor.

Why is less cash available than my balance shows?

Part of your cash may be **reserved for EMI**. See the cash account subheading.

Who do I contact?

Use **Help & FAQ** → **Messages** or **Requests**, or contact your fund office directly.

Quick reference — menu map

Overview	→ Dashboard
My Accounts	→ Cash account, Fund account
Loans	→ My loans, Request a loan, Guaranteed loans*, Loan calculator
History	→ My Contributions, Transactions
Self-Service	→ Cash out, Statements, My Deposits, My dependents*, Settings, Help & FAQ

*Visible only when applicable.
